

# Never Overpay for Your Prescriptions Again!

## Did You Know...

- *1 in every 4 people overpays for prescriptions* when paying their insurance co-pay amount.
- *Pharmacies can (and do) charge vastly different prices* for the exact same prescription. Our *search engine helps you save money*.

At myRxMedSaver, we're pleased to share details on a prescription drug discount program to make sure you never overpay for your families' prescriptions.

With [myRxMedSaver](#), it's easy to save money. It's also free and completely confidential.

When you have a new prescription or want to shop around for your current ones, simply:

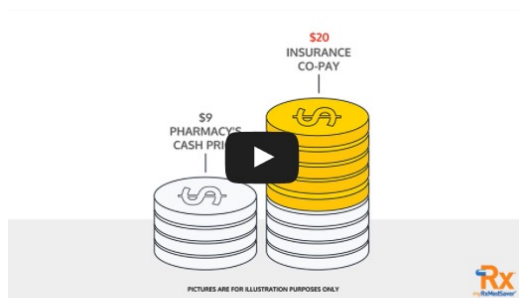

- 1 Take the [Co-pay Challenge](#) to see what you could save. The search engine finds real-time, cash pricing discounts on your exact prescription at your local pharmacies.
- 2 Print or text a coupon for your prescription to bring to your pharmacy.
