# Why Choose myRxMedSaver?

## Save with or without Insurance:

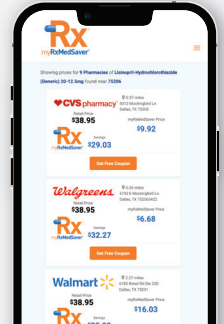

- Even with insurance, you might overpay.  
Compare our cash prices for potential savings.

## Avoid Overpaying:

- Research shows that **1 in 4 insured people overpays** for prescriptions. Don't be one of them!

## Save with Confidence:

- Our program helps most uninsured individuals and **25% of insured people save money** on their prescriptions.

# Protect Yourself from Overpaying

Using your health insurance to buy prescriptions may not always be the best deal. You're automatically charged your plan's co-pay amount, but the pharmacy's cash price may be the cheaper option. Research shows that **25% of insured people overpay for their prescriptions**, resulting in \$135 million of unnecessary annual costs. myRxMedSaver shows you the cash price of your prescriptions, so you always pay the lowest amount.
